

A Blessed Commitment for The New Year From The Divine Feminine

From a Live Channeling on December 18, 2005 in Arcadia, California
The Divine Feminine Speaking Through M. Hunt.

The question to the Divine Feminine was:

"Mother Mary, at the beginning of every year we tend to make new commitments that may or may not last long into the new year, could you please help us make a commitment that will be for our highest good?"

The Divine Feminine Responds:

Of course, but we would like to say that the beauty is in the commitment.
We are not attached to how long the commitment lasts.
We find the beauty in your commitment to begin with.

When you make a commitment, it is usually because you are looking for change.
Before you make a commitment look at your reasons for the commitment.
Your reason for commitment usually is because you wish to change something that is making you uncomfortable.
Or something you wish to change because you think you are doing something wrong.
Or you wish to do something you think is for a higher purpose.
So before you make a commitment for anything examine your reason.
So, we will guide you in a prayer right now; and you may think it in your head.
And it is a prayer that we will say now, that will set an intention,
so that when you make your commitment on the 31st of December,
it will be a purer commitment.

*"Dear Angels, Guides, and Masters,
I would like to make a commitment for change in my life.
I usually make a New Year's resolution to change something physical or spiritual.
Usually it's something that has to do with changing something that is personal for me;
To change something in my life that is difficult for me to do.
And I always have good intentions,
And I pick something that is very difficult,
And something I think will be good for me.
Or will make me a better person
or a more healthy person
or a nicer person;
To be a better person to be around.
But tonight I am putting it in your lap.
I am asking you to choose for me that which would be best for me to change in my life.
Help me to hear you, so that I may hear you and change that in my life
which is for my highest good.
It is my intention to live my life at a higher level.
And I do not know if that change needs to be on the spiritual level,
the physical level,
the emotional level.
I don't know what level it should be.
But you know what is best for my spiritual growth and my physical growth.
So I ask that when the time comes on the 31st of December
for me to make my resolution for the next year
That you would put that inspiration in my mind
And I will be able to hear it, or see it, or know it in some way.
And I would hear that inspiration in some way,
And I will have your help in making the resolution
And in keeping the resolution
Knowing that is for my highest good
That I could live my life at a higher level.
And so it is."*

That is a very wonderful way to start the year.
It's a wonderful way to end the year.
And so if you do that, you will have a much easier way of keeping that resolution.
You can write it when you get it,
You can write it on a piece of paper and burn it.
You can do it like a way to honor it.
Or you can just do it in your mind.
You can be with other friends of the same like mind and say it out loud.
You can say it to a friend that you bond together with,
And say "I want you to help me with this, this year."
You can think of all different kinds of ways to do this.
You can drink a toast to it, exactly at midnight.
You don't have to wait until the 31st of December if you do not wish.
You can do it on your Holy day.
However you want to do this
because this is between you and your Angels Guides and Masters
It is between you and your Higher Self.
You can change, you know, you may set this intention and find that it's very easy
And you might want to do it again at the end of the month;
or in six months, or in three months.
Or you may do this particular intention for the rest of your life.
It is a very high intention.
It is also a way that will help you feel closer to Universe or God.
It is a very easy way to feel closer to your Angels, Guides and Masters.
You can check at the end of every day,
and say
"Angels, Guides and Masters,
How did I do today? Did you guys help me?"
Or
"Angels, Guides and Masters,
Thank you so much for helping me with my intention today."

You can say in the morning, before you get out of bed,
"Angels, Guides and Masters, Help me with my intention today.
I want to start my day out by reiterating what my resolution was.
I want to be really good at it today because its for my highest good
And I know that if I pursue living for my highest good,
that I bless the world in incredible ways."
For you see when you think in these terms
that you will live at your highest good,
you live as a cell in the body of God; Consciously.
And when each cell in the body of God lives at that level,
The World will be at peace.

It does not even take each cell.
It only takes a certain percentage of cells to be at their most healthy.
And because of their ability to be and live at the most healthy
and because of the energy they put out,
the entire body becomes healthy
and that is the way you will achieve world peace.

Is that not your goal?
We know it is or you would not be here.
You wish to live in peace.
You wish to live at the highest that you possibly can.

... And so it is.
